Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ Viper Energy Partners LP ("Viper") has reasonably estimated that approximately fifty percent (50%) of Viper's distributions paid or payable on the dates listed above should not constitute dividends for federal income tax purposes but rather should generally constitute a non-taxable reduction to the tax basis of each distribution recipient's ownership interest in Viper. This form 8937 is being filed to disclose Viper's reasonable estimate in this regard.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Generally, non-dividend distributions should reduce the tax basis of the shares of stock owned by the recipient(s) of the non-dividend distributions. The reduction to the tax basis of each share of stock owned should be the amount of the non-dividend distribution received. Viper has reasonably estimated that fifty percent (50%) of the distributions paid on the dates listed above should constitute a non-dividend distribution and that approximately (50%) of the distributions should be treated as dividends. Accordingly, each distribution recipient should generally treat approximately fifty percent (50%) of the distributions made in 2022 as a reduction to the tax basis of the recipient's ownership interest in Viper.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The reduction to the tax basis of each share of stock owned by a recipient of a non-dividend distribution should generally be the amount of the non-dividend distribution received with respect to each share. Accordingly, recipients of the Viper distributions made in 2022 should generally reduce their tax basis in each share of Viper stock (i.e., limited partner unit) by fifty percent (50%) of the amount per share (i.e., per unit) received in each distribution.

Part II Organizational Action *(continued)*

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ Section 301 (c)(2)

18 Can any resulting loss be recognized? ▶ No

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The distributions discussed are payable on the dates specified in 2022. For calender year taxpayers, the tax year affected should be calender year 2022. For taxpayers reporting on the basis of a tax year other than the calender year, different tax periods may be impacted.
